

Christine Schollenberg

“My thoughts are the way you can make a difference in a child’s life is to get involved and assist in anyway possible. Give them the tools they need to succeed.”

Christine joined the Foundation Board in 2022 after retiring from the Children's Rehabilitation Foundation. She learned about Rossbrook House from a friend and says: I feel it is a hidden gem, and needs to be shared with so many, and the difference that is being made in children's lives.

When asked why she thinks that Rossbrook House and the Foundation are important to the community, she said: Children are our future and we have to invest in each one of them, so they can make a difference in someone's life.
